

STEP 1

If some openings stick closed, use technique below.

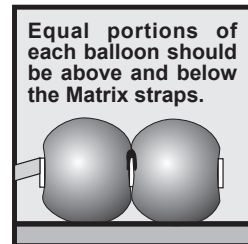

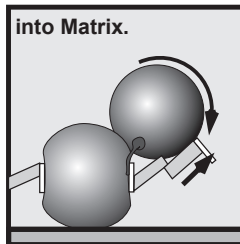

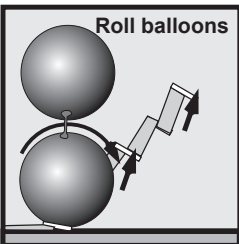

STEP 2

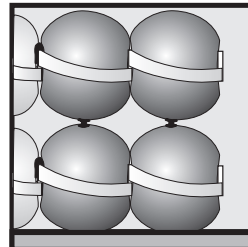

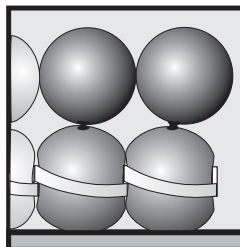

The best size can vary a with different balloons. Test for best results.

STEP 3

Alternate for Double Layer Designs

Size balloons without squeezing. Load duplets vertically in 1st framework then press 2nd framework down over top layer of balloons. See pictures on right.

This bat has 95 opening designed to hold balloons inflated to 8" in diameter. We suggest that you tie in two additional balloons inflated 2" to 3" in diameter for the eyes.

This Bat shape is very light and may easily be suspended from above with string or fishing line.

This shape is also available in a smaller 6' size. The pattern is the same. Just load the 6' framework with balloons inflated 4" in diameter.
