NOTES:

- ▶ Marks the location of split apertures.
- *** The illustration Top-Right shows the layout with background.
- *** The illustration to the Right shows the football player as a cut out. (He stands about 6' tall.)
- *** To make the cut out version; load the balloons first and THEN cut around the balloons. Before you cut, however, be sure to read the split aperture instructions. The instructions explain how to make the half apertures indicated by the ▶
- *** Draw in the eyes with a permanent marker.
- *** You may add details and change colors to match your local team.
