

Decorative Texture and Trim For RMS™ Hearts

Follow basic instructions for an RMS Flat Heart. Add tulle for a softer more feminine texture and “the look of love”.

- From a 3.75” (9.5 cm) roll of tulle, cut two 6” (15 cm) pieces. (Use with RMS 2’ Heart; adjust size for RMS 3’ Heart.)

- Cross the two pieces as shown in Figure A below.

- With your index finger, push the center point of the criss crossed tulle down between a balloon and the surrounding Matrix strap as shown in Figure B below to create a “tuft” of tulle as shown in Figure C below.

- Repeat until surface of the heart is covered with tulle tufts.

Figure B

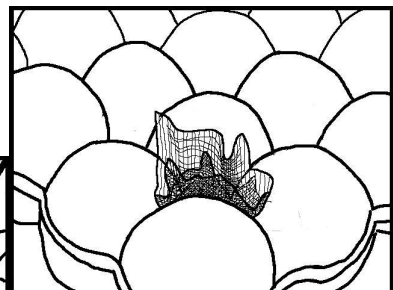

Figure C

The figures below show an individual tulle tuft within a group of balloons, but you may also insert the tufts between balloons and outside straps of the RMS Flat Heart as shown in the photo to the right above.
